

4U Rackmount Chassis with 2 Drive Bays, Retaining bar for 14-slot Backplane, Supports PS/2 Size PSU

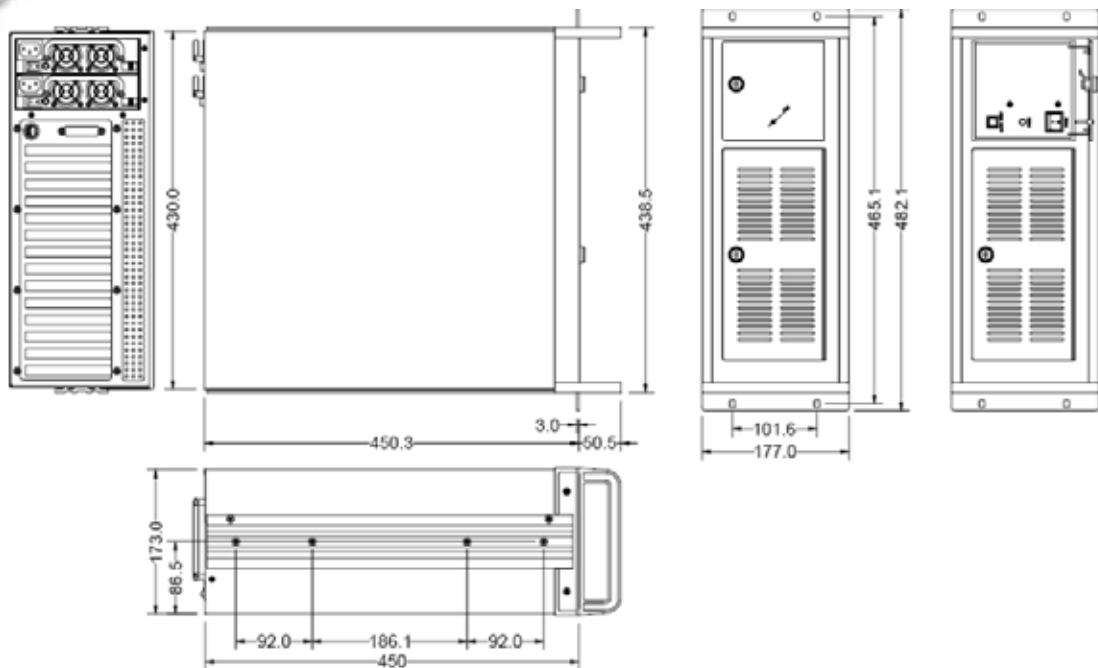

Introduction

The **RCK-402B** 4U Rackmount Chassis provides a cost effective solution for a variety of Industrial applications. It is easily configurable to support either an ATX Motherboard or a 14-slot PICMG backplane by simply changing the rear panel. The **RCK-402B** can support up to two 3.5" shock resistant drives and a retaining bar is included to hold expansion cards in place for those applications which encounter a high level of vibration. Both AT and ATX PS/2 size Power Supplies are supported by the **RCK-402B** for any applications with unique power requirements.
