Introduction

WMC-403M is a standard 4 slot full-length "shoebox" wallmount or benchtop industrial chassis. It is designed to support Micro-ATX motherboard especially for industrial automation applications outside your server room where environment is extra harsh and unfriendly. Within its heavy-duty steel construction, it is equipped with one 5.25" and one 3.5" external drive bays, and one 2.5" internal drive bay for basic system requirement. Hold-down bar and clamps are provided to ensure stable operations against heavy vibration. One 12cm ball-bearing fan with replaceable air filter ensure excellent and clean cooling system for heavy-load applications. WMC-403M offers an ideal solution for computers in public area and mobile computers such as car computers or GPS.
